

Terry "Turncoat" Coleman...

Is Georgia willing to accept another politician's state flag? Terry Coleman sold Georgians out to the Kingdom of Atlanta, corporations, millionaires and the Black Caucus. Terry Coleman cast the deciding vote last year to remove Georgia's 1956 memorial flag from the upcoming 2004 referendum.

In 2001, Terry Coleman also supported and voted for the Roy Barnes bill which replaced Georgia's 1956 memorial flag with his hideous blue flag. Terry Coleman has an established anti-Southern voting record.

The Atlanta Chamber of Commerce will be helping Terry Coleman get re-elected! They are counting on him and he is in their pockets. Terry Coleman represents special interests and the Atlanta Chamber of Commerce, not the people of Georgia or the constituents in his district.

Want to help retire anti-Southern Terry Coleman from dirty politics? The Southern Heritage Political Action Committee (SHPAC) was created to work against these anti-Southern Politicians like Terry Coleman and to defend our Southern Heritage from their repeated attacks.

The Southern Heritage Political Action Committee has volunteers in Dodge and Bleckley Counties ready to go to work to support any viable, acceptable candidate running against Terry Coleman. We will provide monetary support and we also know many Georgians across the state who will provide monetary support to any viable, acceptable candidate running against Terry Coleman. No matter which political party, if you plan on running against Terry Coleman or are interested in running against him, please contact us.

Visit the Southern Heritage Political Action Committee website at www.southernheritagepac.org or write to us at SHPAC, P.O. Box 725308, Atlanta, Ga. 31139.
